EQUINE SOUNDNESS PROFESSIONALS

"A professional collaboration between veterinarians and farriers"

2020 Summer Educational Series

Thank you to our great sponsors!

ESP is excited to announce our Summer Educational Series. We will bring you a 5-part online series over the course of Summer 2020, hosted by five clinicians. Our esteemed presenters are veterinarians with a lameness background, as well as veterinarians that are practicing farriers. The series will cover diagnostic work-ups; demonstrations and discussions regarding shoeing sport horses; specific lameness issues, soft tissue (tendon and ligament) disorders, and joint disorders; as well as discussion of biomechanical concepts, including ground force reaction and the effects of shoeing on biomechanics.

Our first conference will be on Wednesday June 3rd with follow up conferences every few weeks. Exact dates and times, clinicians and lecturers, and lecture subjects will be available in the next few weeks. This conference series is free for all ESP members with a professional membership. For non-ESP members it will be \$25.00 each, or \$100.00 for the whole series.

For more information about ESP please visit us at: www.equinesoundnessprofessionals.org, more details to be posted soon.
